Please comment on the strengths of this course and/or ways to improve this course.

The course was laid out very logically and each chapter flowed well into the next chapter. Went over some practical applications of Calculus, which was GREAT.

The notes are very helpful

Describe instructor's strengths, areas for improvement, and any additional comments.

Probably the best professor I've had at Northeastern so far. Fantastic in every way - Professor Loseu is visibly enthusiastic about the material, communicates every concept in Calculus crystal clear, the handouts are well thought out and intuitive. I felt excited to learn Calculus even though I'm not particularly interested in math! Overall, he is the ideal math professor, I cannot think of anything negative to say. I just wish he taught Calculus 2 so I could take him next semester! :)

Although he was occasionally hard to understand (thick accent), it was clear that he cared for the students and he knew the material.

Very engaging professor, goes over examples with clarity

He was always open to help students if they didn't understand something in the class and in office hours
