| 1 | This course goes at a good pace, but not too fast. There's a lot of concepts put into one semester and would be hard to follow without previous calculus knowledge. The practice tests and quizzes posted on Blackboard were incredibly helpful when it came to studying. | |
| 2 | I'm not a great person to consult about the strengths of this course, as I had already taken Calculus 1 in high school. It was a good review and an easy class, although I can see how the straightforward teaching style would be effective for first-year calculus students, even though I found it boring. | |
| 3 | I learned a lot and have improved a lot since my last Calculus class. | |

Faculty:	Loseu, Ivan	
Response Rate:	46.67% (7 of 15)	
1	This instructor is one of the best math instructors I have had! He is clear, patient and very helpful. No areas for improvement!	
2	The weekly quizzes were an awesome way to gauge understanding of the material since the homework was not covered heavily in class. The only thing I would change is more class participation because not many students were vocal in class.	
3	Prof. Loseu was always clear and concise with his teaching, outlining all of the topics of the day before teaching. Would always be willing to answer any questions we had and strongly pushed his office hours. Always very nice and understanding. Grading was incredibly fair.	
4	Loseau clearly loves math, and he is pretty effective in his teaching style. Sometimes he is confusing with going through steps in problems, but if students ask he will explain his reasoning. Most students had already taken calculus and were bored by the class, but it wasn't the professor's fault.	
5	Incredible professor who has helped me a lot. Always had time to help me in class and in office hours. Calculus went from being my hardest class in high school to one of my favorites here in college because of this great instructor. Would easily take a class with him again or recommend him to others.	
6	He is one of the best professors I have had in my life.	
7	He is a very enthusiastic prof
