

Reimbursement information.

We can reimburse economy class tickets for flights and train (exception: we can reimburse Amtrak Acela Business class as it is the lowest class of service on these trains), as well as ground transportation. For more information on reimbursements see the corresponding tab on [About | Department of Mathematics](#).

Domestic: we'll try our best to reimburse you in full, but at this point we can commit to reimbursing your expenses up to the following amounts based on your location.

Boston: 200\$.

New Jersey: 250\$.

Chicago: 500\$.

Wisconsin: 700\$

California: 800\$.

International: Please inquire with Ivan Loseu, cc Ade Ellafi, and provide an estimate of your possible flight costs. Especially if you come from far away (e.g. Asia) it will make sense to combine your visit with visits to other universities if this is applicable. Please keep in mind that if you need a visa, you should get B1 (visitor for business) visa to get reimbursed. You **should not** get a B2 visa. If you are eligible for the visa waiver, you should get WB. If you are a Canadian citizen, tell the border agent that the purpose of your visit is Business. If in doubt, please email Ivan and Ade.
